Welcome to Creating Heaven on Earth!

As a Life Coach, Spiritual teacher and Intuitive I had been looking to do a program where I could help people live more passionate purposeful and peaceful lives, I received my answer when the acronym for ANGELS came to me from the angelic realm. As it is with many angelic interventions sometimes the answers come when you least expect them. The angels do always hear us and they heard me. The result is this course ☺

It is up to us to listen for their answers to our questions. When we get into alignment with our source, we will hear their answers. Whether you work with Angels or not there must have been times in your life when suddenly you received an answer to a question through symbols, ideas music or even a voice in your head. That answer could come from your intuition, the Source or God, your spirit guides or the Angels.

I'm so excited because, in this six week program, myself along with the angelic realm will help guide you to hear the angel's soft, subtle but clear voice for the answers to your questions. And even more importantly the program is designed to raise your vibration so that you can get in touch with the angelic realm on a regular and consistent basis, even after the course is finished.

Energetically the angelic realm vibrates at a very high frequency. And until we can align ourselves to that frequency it can be hard to hear or feel angelic communication when it comes to us.

During the next six weeks we will cover six different archangels and a variety of tools and techniques to help you connect more deeply with your spirit and to hear and communicate with the Angels.

I believe that when the Angels gave me this acronym of A.N.G.E.L.S., it was divinely laid out in terms of the structure from one lesson to the next. As I said before, the angelic realm vibrates at a very high frequency, so week upon week the lessons will build so that you can raise your vibration higher. The higher your vibration becomes, you will begin to lead a more passionate, purposeful and peaceful life and then much more effectively communicate with Angels.

Angelic Overview

The study of Angels and then the angelic realm can be long and exhaustive. The myriad of texts, archives, interpretations and ideas relating to the angels goes on and on and on. For our purposes during *Creating Heaven on Earth*, I will do my best to give you some historical facts, figures, events along with my own personal interpretation and experiences. I always encourage you to do your own investigation and research if that feels appropriate to you.

What is most important during the next six weeks is that you take what I have to present to you, internalize it and have the experiences of your own relationship to each Archangel. You will see that as you begin to work with the archangels that you will start to have your own specific feelings, thoughts and emotions that go along with each Archangel.

Creating a personal relationship with the Angels is what we are after here. When I say a personal relationship, I mean for you to look at the angelic relationship very like a human relationships. Obviously, they are not the same, but when we invite or open up to the energies of these angels there will be a period of introduction, understanding and then a real trust and communication. This relationship, like human relationships takes focus and needs to take a priority if

you want to go beyond a surface acquaintance, but instead create a true, real and loving friendship with the Angels.

Images, words, symbols and icons can all be very helpful in beginning our communication with the angelic realm. When we use these things it triggers within us an opening or a gateway for our communication with a particular Archangel or the Angelic realm. These things can be as obvious as a picture or portrait of an angel that we gaze at and contemplate a song that triggers a deep sense of connection with the Divine or even a walk in nature. These gateways may vary with different Archangels.

I would strongly encourage you to look for these images, icons or symbols and how they make you feel in your gut or mind as they represent or “speak” for a certain archangel.

The other thing that is very important is how we begin to hear the Angels communicating back to us. After all, if we don’t know that they are communicating back to us, then we will never develop a real relationship with them and be able to access all of their guidance.

I am a firm believer that the Angels communicate back to us in a wide variety of forms and those forms vary from person to person and situation to situation.

With that in mind here are a few of the most common ways in which the Angels may be communicating back to you:

- Signs- Seeing a picture, finding an item, songs or music
- Coincidences- Things that seem to be just too much of a coincidence and your gut tells you that this is the answer to a question or a prayer
- Through People- A conversation that brings up the exact answer or idea that you presented to the Angels, Strangers that seems to point you in the right direction,
- Feeling the sensation of Touch- Such as a breeze across your body, something touching your face when no one is there
- Rainbows
- Cloud Formations
- Intuition- This is one of the most common and powerful forms. When we have a very strong intuitive "hit" about something that we just can't ignore, it is very likely the Angels pointing you in a specific direction. This can come in your gut or your heart.
- White Feathers- Finding or coming upon white feathers in places that are unexpected.
- Miracles- Unexplained phenomena where a shift in the reality of a physical, spiritual or mental situation occurs.

- Auditory- Actually hearing a voice of guidance
- Feelings- Having a very strong physical or emotional feeling

Just as an example, when I communicate with Archangel Gabrielle I get an overwhelming feeling of warmth and calm throughout my entire body. Also when I connect with Archangel Michael I can hear his voice in my right ear. When Uriel speaks to me I have a hyper awareness around my left shoulder.

Before we go on there are a few points that are paramount in your journey with the Angels. Here are the basics that you need to know:

- We must ask for Angelic intervention or guidance in our lives.
- Working with angels is a subjective science and not an exact one. This is something that we have to accept as we embark on this journey.
- The Angels and the angelic realm have one overarching purpose; to help us.
- The Angels always hear us.
- We are responsible for listening to their guidance.
- Angels cannot override our power of choice.
- We always have the choice to take an action or not taken action based on what the Angels are communicating or telling us.

How the Course will work.

During the six weeks of this course, I will be there to help and guide you through your weekly audio MP3's, the week's lessons, worksheets, and the weekly LIVE virtual class, which is the crux of the course.

- For six consecutive weeks, you will receive an email with that week's lesson in PDF format (like this!). That lesson will have an overview of the lesson and any worksheets that will be needed for the week. Each week will be slightly different as far as what will be required; therefore some lessons will have no worksheets, but instead I will instruct you on how to use your Angel Journal.
- You will also receive a link to that week's audio MP3 lesson. These audios are really the crux of the course and are meant to be the starting point for that week's lesson. These audio MP3's will always include.

1. An informational and inspirational talk about the lesson
2. The Archangel that is associated with that week's Lesson
3. A guided meditation
4. Instructions about how to proceed for that week

*I strongly recommend that you download these, so that you can continue to use them during that week. You can even upload them to an iPod so you can take them with you to reinforce the ideas and concepts throughout the week. All of the lessons audio MP3's will be stored in the same place on the internet, so you will be able to go back and listen or download even after that week's lesson is over.

- **ANGEL JOURNAL** ~ You have received an Angel Journal and this journal should be used as you see fit. I would say to use it to record thoughts, experiences, questions or observations. You can even use the journal to draw pictures in if you'd like...you never know how the Angels will want to express themselves through you!

At times I will instruct you to record something in the journal for a particular week's lesson or in general. My recommendation is that you get a 3 ring binder then download and print your Angel Journal so that you can have it accessible along with all your lessons and worksheets for the whole course.
